- science fiction
- social issues

Nonfiction

- art & music
- science
- biography
- history
- poetry

Prompts

Suggest no more than five writing prompts to help students think of what to write about this book. Structure the questions or statements to provoke a personal response to the book, not just simple recall questions. For example, "What would you have done in x's place?" rather than "What did x do to solve the problem?"
